Dear Mr. Poppe:

Often times as Motor Vehicle Division employees, our jobs and the work we perform seem to be thankless and with little fanfare from the public that we serve. We realize that at times the decisions and restrictions imposed by this office and ITG, Traffic Engineers can place additional hurdles on our customers.

You usually accept those decisions graciously and with dignity. Therefore, I would like to personally thank you and your employees for the courteous and professional manner that you have always shown to the Class 'C' Section staff.

Again, thanks to you and your employees.

Sincerely,

A handwritten signature in cursive script that reads "M L Blair".
